\$95 Month Basic Rate Announced

OTTAWA, April 15.—(CP)—The long-heralded improved service pay rates aimed at attracting highest-type recruits to Canada's enlarged peacetime active forces of 51,100 men were announced today. They include a basic rate and a subsistence allowance of \$95 a month for ratings, privates and aircraftmen. The new rates are effective Oct. 1.

THEY COMPARE WITH the pre-war rate of \$72 and the wartime rate of \$75.50. The new basic rates ranged to a total of \$90.3 a month for vice-admiral, lieutenant-general and air marshal—ranks of the chiefs of staff—but the general scale of comparison was given with pre-war and wartime rates although officers declared that the increases were proportionate with those of the lowest ranks.

A RELEASE on the new rates said: "For the last five months a special advisory committee made up of senior officers of the three services and government officials has made a study of the new rates."

Oil Well Blows In Near Lloydminster

Exclusive to the Edmonton Bulletin
LLOYDMINSTER, Sask., April 15.—At nine o'clock Saturday night SAC No. 4 well, five miles south of Lloydminster, came in with a roar and threw a column of oil 40 feet in the air when the cement was drilled out of it. Late Sunday the well was still flowing by means six seconds apart and at a rate of between one and two thousand barrels per day.

BEING UNABLE to get the well under control earth embankments were hastily raised and the earth-buried equipment was abandoned. Niodemus was rushed to the site. Three oil field truck tanks were busy rushing the oil to the Esso refinery six miles away. This spectacular well is in the Silverdale pool which extends four miles due south of Lloydminster and is located on 1,500 section three, township 40, west of the third meridian.

The operator who brought in this well is Lloyd Lynch of Lloydminster and Vancouver, who has been successful in the Montana and Vermilion fields and who was largely responsible for the discovery of the discovery well of the Silverdale.

Set Rose Trial For 20th of May

MONTREAL, April 15.—(CP)—Date of trial of Fred Rose, Labor-Progressive member of parliament for Montreal-Carter, was set at 10 a.m. on May 20 by the federal Justice of King's bench court. Rose pleaded innocent today on charges of communicating with the Soviet Union and co-operating with the enemy.

He will make a pro forma appearance May 3 at the opening of the spring session. Defence Counsel Joseph Cohen, who was previously arrested, will have the trial put over until the September session.

Rose was arrested a month ago in Ottawa and brought to Montreal. His trial was postponed for the following preliminary hearing he was free on \$10,000 bail. This was cancelled by Judge Rose, who was released after spending two nights in jail. Rose was released on \$25,000 bail by Mr. Justice Lamer to a higher court.

Amnesia Victim Found in Toronto

TORONTO, April 15.—(CP)—A brown-haired woman, aged about 25, walked into a police station Sunday and collapsed before he could tell who she was or what she wanted. When she regained consciousness in hospital several hours later she could not remember her name or anything about her life. Officials said she was suffering from hysteria and amnesia.

Sudden Collapse Being Probed 3 Edmonton Area Fatalities Reported

Three fatalities in the Edmonton district during the week-end involving an automobile accident, a drowning and a sudden collapse which is under RCMP investigation, were reported by "K" Division headquarters of the Mounted Police Monday.

Dead are: Arthur Johnson Brewer, 24, of Lacombe, killed in an auto accident; Victor Poirier, 15, of Leduc, drowned in Beaver River; Nick Kostyniuk, 46, dead as the result of possible foul play, at Nordergo.

At Security Council New Big Three Row Expected Over Iran

NEW YORK, April 15.—(AP)—Iran officially withdrew its complaint against Soviet Russia before the United Nations Security Council today.

By R. H. SHACKFORD
Exclusive to The Edmonton Bulletin

NEW YORK, April 15.—(BUP)—Announcement in Tehran that Iran's ambassador here has been instructed to withdraw that nation's complaint against Russia today promised another angry, Big Three row in the United Nations Security Council.

IRANIAN AMBASSADOR Hussein Ali's aides declined to say whether the new instructions had been received. The new instructions will meet at 1 p.m. MIST, and indicated that they would reject Russia's demand for immediate dropping of the Iranian case—even if Iran asks that it be dropped.

Earlier, Hussein Ali had received instructions to tell the council that Iran believed Russia will keep its promise to get out of Iran by May 5.

BUT THE new showdown with Russia already is overshadowed by preliminary diplomatic maneuvering.

Executions Known By Kaltenbrunner

By RICHARD KAISCHKE
NUERNBERG, April 15.—(AP)—Judges Hoes, former commandant of the concentration camp, testified before the International Military Tribunal today that Defendant Ernst Kaltenbrunner and his staff were responsible for all orders for commitments and individual executions in concentration camps.

Hoes, a defence witness, gave this testimony under cross examination. He said that Kaltenbrunner considered the most damaging of any given against Kaltenbrunner to date. He said that Kaltenbrunner, as chief of the Nazi Security Police, gave orders for "protective custody," "domestic discipline," and "domestic executions." Such orders, he said, were signed either by Kaltenbrunner or by his deputy, Heinrich Mueller.

The defence, apparently taken by surprise, attempted only brief counter-questioning to show that Mueller's signature on execution orders appeared more frequently than Kaltenbrunner's.

THE WITNESS SAID Kaltenbrunner also held in his hands the date of thousands of prisoners at the end of the war.

Order to Stand Home-Buyers Unable To Evict Tenants

By VICTOR MACKIE
Edmonton Bulletin Ottawa Bureau

OTTAWA, April 15.—Members of Parliament deluged with requests from constituents for orders to evict tenants from homes and cannot move into their homes because of the current "freeze order" have been told by government housing officials here that there is no chance of the order being lifted for many months.

AT PRESENT, home-owners, unless they are veterans who owned their homes before the war, receive no assistance from the housing administration to force private owners to vacate and allow the owners to move in.

One way in which a tenant can be forced out of occupation is where the owners divide the house into two or more units, and the new home-owners are now unwillingly in the position of landlords and are being asked to move out of their newly purchased home to co-exist with the tenant who is now a

ALEXANDER AT HOME IN CANADA: A long train, Alexander and his children, left to right, Shantia 10; trip and a full day of formal ceremonies ended, Canada's Brian, 8, and Maureen Rose, 13, stand on side porch of new Governor-General, Viscount Alexander of Tunis, Lady Rideau Hall, their new home, after inspecting grounds. Women, Children in Forefront of Strike Disorders Butte Is Shaken by Mob Violence

By ED JOHNSON
BUTTE, Mont., April 15.—(AP)—Governor Sam Ford disclosed today he was considering asking the Federal government for help to stop riotous in Butte that left scores of houses wrecked, two boys wounded and an unannounced number of mobsters under arrest.

DECLARING IN HELENA that he would talk with Butte police officers—greatly outnumbered by demonstrators—before deciding whether to ask for federal assistance, the governor said: "They (peace officers) assured me yesterday they had things under control but apparently they didn't."

As this tense copper mining center—"Richest hill on earth"—survived the wreckage from a second night of unbridled violence labor leaders and public officials pleaded for cessation of destruction. The rioting had centered their attacks on homes of workers who did not join the strike.

There is a strong feeling in the House that the Commons should not wait for a Senate report but take action itself in the matter. The government decision is said to be the answer.

(Continued on Page 16) See MOB VIOLENCE

Two U.S. Pilots Hurt in Crash

Two United States Army pilots received minor injuries during a landing of a glider transport near Fort and six minutes later the glider crashed into a small lake, but the aircraft, had been cut loose from the tow cable, and the speed of the machine was apparently too high and it crashed into the bank.

A "weasel" amphibious power unit in the glider broke from the lashings, rolled forward and pinned the two pilots in the front end of the machine.

Rescue efforts by USAP medical personnel sent to the scene from Fort Reuse, succeeded in bringing the injured men from the scene of the crash.

Sympathy Strike

JERUSALEM, April 15.—(Reuters)—The Palestine Railway Workers' Union and more than 3,000 members of the Hafia District Union for Civil Service Association have decided to strike today in sympathy with 2,500 striking Palestine postal workers.

Appeal Court Is Likely Income Tax Collections Due For Early Change

Edmonton Bulletin Ottawa Bureau
OTTAWA, April 15.—It was learned here this morning that the government plans to make far-reaching changes in the new future in administration of Canada's income tax collections.

AN IMMEDIATE CHANGE will probably be made at this session whereby an appeal court will be established to hear appeals against decisions by the income tax department.

This will be followed, according to reliable information, by the appointment of a royal commission to investigate the whole income tax collection system from top to bottom, and make recommendations for simplification of the now enormously complicated methods of the department.

Such a report, however, may require a year, and possibly two, for investigation and completion.

In the interim, an appeal court will be set up, according to present government intentions.

LOUD COMPLAINTS have been heard by a senate committee on tax reform this session against arbitrary decision of the income tax collection division. It has been alleged that the department even refuses to discuss to applicants the grounds on which its decisions have been made.

There is a strong feeling in the House that the Commons should not wait for a Senate report but take action itself in the matter. The government decision is said to be the answer.

Set New Record On Australia Hop

SANTA MONICA, Calif., April 15.—(AP)—A 44-passenger Douglas DC-4 plane Saturday clipped one hour and six minutes from the best previous time for a flight from San Francisco to Australia. Douglas Aircraft Co. said the plane arrived in Melbourne after a trip of 36 hours 59 minutes.

Increased Price Attacked Protest Boost in Cost Of Farm Implements

WINNIPEG, April 15.—(CP)—Farm leaders and heads of government agricultural departments on the prairies Saturday protested increased cost of farm machinery.

ANNOUNCEMENT from Ottawa has been established, navy headquarters announced Sunday. Similar will provide additional sources of machinery and farming in general were on the increase.

"It is too big a jump," he said. "It is wrong in principle and wrong in amount."

OTHERS who commented said the price board should continue to meet the manpower needs of the army and the navy.

Defer Any Action On French Radios

Edmonton Bulletin Ottawa Bureau
OTTAWA, April 15.—The CBC board of governors has "postponed" decision on an application for a radio license for French-language broadcasts at Edmonton.

At CBC headquarters here today, the CBC was informed that the government will go no further in plans for a privately-owned French language network in Western Canada, for the time being, anyway.

APPLICATION was made for licenses at Edmonton and at Gravelbourg, Sask.

A third application for a license, at St. Boniface, Man., was granted earlier, and until the CBC determines how this station is to work out, the issuing of licenses at Edmonton and Gravelbourg will be withheld.

The Edmonton application was not refused, decision only being "postponed."

HEAD OFFICE - TORONTO

Forces' Pay

(Continued from Page 1)
A thorough study of the pay and allowance question. The committee reviewed the salaries and wages paid in civil life and weighed carefully the advantages and disadvantages of service life in comparison. The new pay schedule is one which compares favorably with life in the forces, with remuneration received in civilian occupations by graduates of high schools and universities.

HIGHLIGHTS OF THE CHANGES ARE:

1. Placing rates of pay for all comparable ranks and trades for navy, army and air force on a parity.
2. Providing recruits with numerical increases in trade technical rates in many fields and to provide for increase of pay as their skill increases.
3. Discarding certain pre-war regulations that infringe on the

domestic personal liberties of the serviceman.
The basic rate on enlistment, including subsistence, is \$85 a month. This rate was established to provide for an unskilled worker with a high school education—a qualification required of prospective recruits. There may be certain exceptions to the educational standard, notably personnel who have had active service experience or who possess certain trade skills.

PROMOTIONS, with appropriate increases in basic pay, are granted for the assumption of increased responsibility. To co-ordinate equitable ranks in the three services, the army appointment of lance corporal has been replaced by the rank of private first class—a United States army designation. This corresponds to the navy rating of able seaman and the air force classification of leading aircraftman.

Another feature of the new regulations is increased pay based on length of service. In addition to promotion and trades ability. This provides for automatic in-

creases in pay after three and six year periods of satisfactory service in any one rank as follows: private first class and corporal, \$3 monthly increase after each of two three-year periods; sergeant upwards to commissioned rank, \$3 monthly increase after each of two three-year periods; officers up to colonel and equivalent rank, \$15 to \$35 on a graduated basis for similar periods. All increases apply in like manner to comparable ranks of the army and air force.

Active service personnel will, on acceptance, carry in their initial rank any service in that or higher ranks held during the war. In addition to increases for promotion and service, as a man's proficiency advances in any trade or skill, his pay will increase accordingly. The services employ a great many tradesmen and technicians and these various trades have been grouped for pay purposes.

In order that the serviceman may qualify for this extra pay he will have the opportunity of taking tests and becoming eligible for upgrad-

ing. The rates payable for each group are in addition to the standard pay of rank.
Trade group one will get \$4 a month; trade group two, \$12; trade group three, \$20; and trade group four, \$28.

THE PRE-WAR "married allowance" a financial restriction limiting the numbers of service men eligible for marriage, known as 15 per cent has been discarded. All ranks may draw the allowance upon marriage, providing they have completed the initial training period appropriate to their service and have attained the age of 23 for men, and 25 years for officers.

These restrictions do not apply to personnel who have had active service during the war. The marriage allowance will be a set rate of \$20 per month for men and \$30 per month for officers. This will be subject to reduction of \$10 per month where the individual's family occupies government-owned "married quarters."

PROVISION HAS BEEN MADE for servicemen who may be required to serve apart from their families. A married man living with his family uses his subsistence allowance for their maintenance as well as his own. When he is separated for service reasons he will continue to draw this allowance—ranging from \$45 for lowest ranks—less \$15. He also will be provided with rations and quarters for himself or a cash allowance in lieu. For example, a married able seaman serving at sea continues to draw his subsistence allowance less \$15 although he is provided with rations and quarters afloat. This will apply in a similar manner to the other services.

PAY FOR OFFICERS is based on the same principles maintaining for other ranks except that there is no equivalent of pay for trade groups. Educational requirements for commissioned ranks for the most part will be a university degree or equivalent professional standard except for officers with active service experience or officers appointed for limited service. All officers on appointment, will receive an allowance of \$20 for initial purchase of uniform. Should the purchase of tropical kit be necessary, the officer will be granted an additional \$50. Warrant officers class one will receive \$100, and other ranks are issued their uniforms at public expense.

DETAILS OF PAY and allowances for members of reserve formations now are being considered. In general they will conform to the basic pay structure of the permanent services. Details will be announced later.

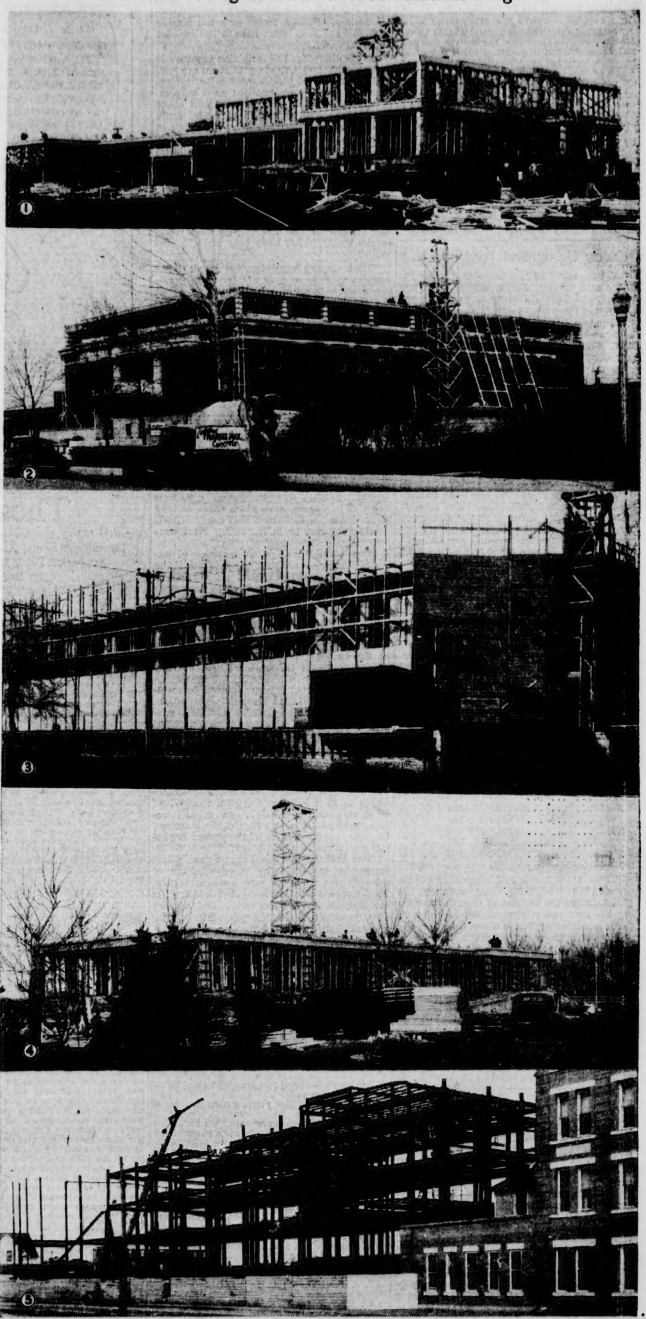

New Drug Relieves Hay Fever Victims

BUFFALO, N.Y., April 15.—(AP)—A new drug which relieved symptoms of 85 per cent of hay fever patients afflicted by ragweed or grass pollen was described Saturday at the 100th anniversary meeting of the University of Buffalo Medical Alumni Association.

Dr. Carl Arbesman said he and Dr. George P. Kept had completed clinical studies of the new drug pyribenzamine, approved a few days ago by the pure food administration for general medical practice. Dr. Arbesman said it would be available by July.

WARNING THAT it is not a panacea or cure-all for hay fever or hives, Dr. Arbesman told the group a study of 471 cases had been completed and "there was at least 86 per cent improvement in the 85 per cent of hay fever cases showing relief."

Essential Building Features 1946 Construction Program

—Photos by Alfred Byth, Edmonton Bulletin Staff Photographer.
Edmonton is enjoying one of the greatest essential building booms in its history, and already this year permits to value of more than \$3,000,000 have been issued. Home building permits issued are nearing the 400 mark, and numerous permits have been granted for the construction of institutional, commercial and business structures and for apartment blocks. The five structures under construction shown above represent an outlay of \$1,621,400 of the 1946 permit total. At the top is the nurses' home being erected at the University hospital. This structure is estimated to cost \$450,000. The addition to the Canadian National Railways depot is shown in No. 2. This project will cost \$116,400. In No. 3 is shown the city telephone building addition which is estimated to cost \$225,000, and in No. 4 is shown the chronic patients' hospital being erected by the Royal Alexandra Hospital at a cost of \$230,000. In No. 5 is shown the addition to St. Joseph's hospital on Whyte avenue, estimated to cost \$600,000.

Cancel Ceilings on Wide Range Goods

OTTAWA, April 15.—(CP)—The Prices Board last night announced suspension of price ceilings on some 17 categories of goods varying from surgical and dental equipment to certain sea foods.
THE SUSPENSIONS were additions to a list established Feb. 1 following a statement by Prime Minister Mackenzie King on price control policy.
The list that Finance Minister Huley said the removal of price restrictions should not be taken as a signal for general increases and ceilings would be re-imposed if unreasonable advances occurred. Subsequently ceilings were lifted on selected lists of other articles, including furniture.
Sunday's order removes ceilings on a lengthy list of specific articles which include a wide range of

office supplies, custom-built furniture, a few minerals and chemicals, polishes, razors, household articles of cast aluminum and electric light bulbs.
Two types of services—repairing, maintenance and installation of electric wiring and equipment and welding—are removed from ceiling restrictions.
ARTICLES ON WHICH price ceilings are removed in the new order include:
Thermometers, barometers, magnetic compasses, caskets and casket hardware, dog sleighs, dog collars and leads.
Surgical and dental instruments.
Articles produced from glass tubing, but not including containers for products for resale: Cements as follows: stove, roofing, linum, fertilizers and pesticides, as follows: human, duck, manure, sphagnum moss, peat moss.
Office supplies: wooden or up-holstered furniture.
Industrial minerals when ground

Survives Shock Of 13,200 Volts

CALGARY, April 15.—(CP)—A city electric light department employee who was revived by a quick-thinking fellow employee after 13,200 volts passed through his body Saturday, he was Kaywood Wilson, and his rescuer was Howard Hepburn.
Chemicals: Essential oils and aromatic chemicals, natural or synthetic, including menthol and camphor and castoreum bark.
Food: Fresh or frozen rabbit, clam meat, oysters, shrimp, starfish, two, shark skin, wings, swordfish and tuna fish, canned abalone and canned shark and eels.
SPORTS EQUIPMENT and accessories: All except golf balls, tennis balls, articles of furniture, footwear, or articles chiefly of fabric or yarn.
Wilson, who applied artificial respiration on top of the pole on the East Calgary overhead bridge where Wilson had been working when he was shocked.
HEPBURN WAS DOWN below with Tyler, another employee, when he saw Wilson hurt. He hurried up the pole and had to fight with Wilson, who was hysterical with pain, to apply artificial respiration after removing him from contact with the heavy-current line.
While Hephurn was applying first aid Wilson lapsed into unconsciousness and Tyler went up the pole and helped Hephurn carry him down. He was rushed to hospital, where he was found to be suffering from burns to the neck, shoulders and hands.
The burns are not thought to be fatal but Wilson is in serious condition.

Galileo demonstrated in 1632 that the earth revolved around the sun.

75 Years Strong
1871-1946

Growth of a Nation...

AS countries open up and population increases, certain enterprises in trade and commerce, agriculture, industry and finance become nation-wide institutions.

Confederation Life Association, which is celebrating its Seventy-Fifth Anniversary, enjoys this nation-wide eminence. In fact, it has grown until it has become an international institution.

Founded in 1871, and progressing from small beginnings, it has extended the Security and Stability of its policies throughout the length and breadth of Canada and Newfoundland and to the people of Great Britain, the West Indies, Central and South America and the United States.

To meet constantly changing and progressive conditions, Confederation Life has pioneered in the creation of modern policies, which include Monthly Income Disability Benefits. It is one of the few companies that has continued to offer this benefit. It was also one of the first Canadian Life Insurance companies to offer a Complete Group Insurance Service.

Today in its Seventy-Fifth Anniversary Year—the Stability and Security provided for policy owners is greater than ever.

IS \$18,000 A LOT OF MONEY ?

Yes ☐ No ☐

Yes In thousands of cases, \$18,000 represents a man's life savings.

No In an estate, as the total amount left to care for dependents, \$18,000 is not a lot of money.

To make it stretch over the years, to turn every last penny to good account, requires the most careful administration.

Actually, more than one-half the estates in our charge are less than \$25,000.

That we are meeting with approved success in their administration is evidenced by the steadily increasing numbers coming to us.

We welcome inquiries on any estate problems, of whatever size.

WRITE FOR THIS NEW BOOKLET—It explains the duties and requirements of an Executor, and how to select a trustworthy administrator. The new book also contains valuable information for men who own real estate, small or large.

Owen Showered

With Firecrackers

MEXICO CITY, April 18.—(AP)—They're worse than Brooklyn, grinned Mickey Owen, former Dodger catcher, after watching fans whoop it up in a Mexican baseball league game Saturday.

Owen, who arrived Friday under a five-year contract to play in Jorge Pasquel's Mexican circuit, was introduced to a cheering crowd of about 20,000 at the Mexico City-San Luis potosi game.

Accompanied by a Pasquel aide, Mickey walked by the stands, raising his right hand like a presidential candidate, and chatted with players of both clubs.

"I'm a baseball man," he said as he returned. "Pasquel's" box ad-

arguments between players and umpires, and the thud of four home-

runs may have made him homesick for Ebbets Field, but when firecrackers popped all around him he knew he was somewhere else. Mexican fans like to enliven the diamond sport with booming cannon crackers and hissing sky-rockets. One exploded beside Luis Luján pitcher Jorge Comella as he was winding up.

Too Much Red Tape In Protest

Many Canadian Army Veterans Settle Down in Gt. Britain

Many Canadian servicemen are taking their discharge in England instead of returning home. Norman Cribbens, who went through the process himself, describes it in the following article.—EDITOR.

By NORMAN CRIBBENS

THURSDAY, Surrey, England, April 15.—(CP)—More than 50 Canadians are being discharged weekly from the Canadian army in England and about 900 others have returned during the last six months after being demobilized in Canada.

Muskox Findings Improve Equipment

OTTAWA, April 15.—(CP)—Canadian and United States observers with the Canadian Army's Muskox exercise are making substantial improvements in winter equipment produced by both countries. It was announced last night by defence headquarters here and the war department at Washington.

THE ANNOUNCEMENT said discoveries already made are expected to prove valuable not only to the armies of both countries but to civilians living in extremely cold climates of Canada and northern United States.

Muskox reached Norman Wells Saturday night.

One United States observer on the Canadian operation, William P. House of the U.S. Quartermaster Corps, is making important changes in types of American clothing, food and other supplies. On the basis of his recommendations, special equipment is being developed by the U.S. and flown to the Arctic. Canadian research observers operate similarly, with the assistance of the Americans in carrying out tests of equipment and clothing, from fur parka to tent, to food, to shelter, heating and cooking appliances, lighting, rationing, sleeping gear, footgear, gloves, cap, fuels and lubricants.

ONE EXAMPLE was a modification of 15 Yukon-type stoves used on the exercise to test in conjunction with Canadian-made stoves specially designed for the moving force. Originally designed to burn wood, the U.S. stove was modified after the expedition passed the time limit.

Mr. House telegraphed Washington requesting modification for oil consumption and less than two weeks later the stoves were dropped by parachute at a campsite 300 miles north of Churchill, Man.

At present Canadian soldiers were supplying special raftering equipment to be used in crossing rivers in northern Alberta and North West Territories in case of an early spring breakup.

Spend Large Sums Feed Late Enemies

WASHINGTON, April 15.—(AP)—The United States is reported planning monthly expenditures of almost \$60,000,000 to help feed occupied Germany and Japan until mid-1947.

A total of \$700,000,000 has been earmarked for this purpose in the war department's budget submitted for the 12 months beginning July 1, said an official who withheld his name.

To make up current deficiencies food already is being shipped into the United States occupied zone of Germany at the rate of more than 50,000 tons a month. About 25,000 tons of rice and rice substitutes have been delivered to Japan thus far.

The basic ration of the 18,000,000 Germans in the United States zone was reduced this month from 1,535 to 1,215 calories.

Officials declined to reveal the ration contemplated under the new budget estimates.

2,400-Year-Old

Letter Is Found

CAIRO, April 15.—(AP)—A letter written by Papyrus in 300 B.C. mentions the "Queen of Heaven," who may be the same pagan Goddess referred to by Jeremiah in his prophecy of the destruction of the Jews. In Egypt, Prof. Sami Gabra, Faculty of University archaeologist, said Sunday. The Papyrus was one of seven well-preserved letters found in a jar in an underground gallery at Tuna el Gebel, about 200 miles south of Cairo. Only recently translated, the letter, written in Aramaic characters, the language of Christ, opens with greetings and an invocation of pagan divinities, principally Isis, Maat, Schemin, the "Queen of Heaven."

THESE WOMEN

by d'Alessio

"This came from my aunt, dear. You know, the absent-minded one!"

Fringed Fun Suit

Newest innovation in play clothes are the fringed shorts worn by beautiful Linda Stirling. The fringe adds a gay note to the solid colored shorts, worn with a contrasting unadorned top.

Accused Startles Trial at Calgary

CALGARY, April 15.—(CP)—A sudden outburst from Lawrence Barrs Saturday afternoon shattered the procedure in the courtroom where he is on trial for the murder of a neighbor, Frank Thomas.

As J. E. Lauder, Barrs' farmer, stepped from the witness stand where he had been called by the prosecution to give evidence in the case for the first time, Barrs leaped from the dock, pointed to the witness stand and shouted: "Say Lauder, this isn't some of your handwork is it?"

A MURDER of surprise rippled through the spectators crowding the courtroom as Barrs broke the silence that had characterized his demeanor since his first appearance in court.

Barrs, scarcely five feet from Lauder, shook an accusing finger at the witness, then turned and allowed a guard to lead him quietly back into the prisoner's dock.

The trial then resumed.

Ice Is Anaesthetic For Amputation

LONDON, April 15.—(BUP)—The Daily Sketch reported today that the Glasgow Royal Infirmary has completed a successful leg amputation, employing benzoin and layers of anesthetic.

The patient, a 70-year-old man, is said to be completely comfortable after the operation in which his leg was amputated by resting in the ice cradle for six hours. Bleeding and shock were reported reduced to a minimum.

Hyndman President Of Coal Operators

CALGARY, April 15.—(CP)—After hours of work and the holiday with pay order of the Board of Industrial Relations were featured on the agenda of the annual meeting of the Domestic Coal Operators' Association of Western Canada held here Saturday. E. R. Smith, president of the Western Canada Fuel Association, addressed the meeting in the morning, and G. Stubbs, commissioner of the Western Canada Bituminous Coal Operators' Association, was also present.

THE FOLLOWING OFFICERS were appointed: C. A. Hyndman, Edmonton, re-elected as president; J. Davidson, Lethbridge, first vice-president; J. F. Harris, Rosedale, second vice-president; V. A. Conroy, Drumheller, secretary-treasurer.

Fractures Skull Of 8-Month Baby

DETROIT, April 15.—(AP)—An eight-month-old baby girl with a fractured skull was in critical condition in hospital yesterday, while her stepfather was held on a charge of investigation of attempted murder. Police said Charles Vier, 26, stepfather, admitted striking the child after becoming annoyed when she cried.

LaGuardia Refuses Salary From UNRRA

NEW YORK, April 15.—(AP)—Fiorello H. LaGuardia, director-general of the United Nations Relief and Rehabilitation Administration, said Sunday he was not accepting any of the \$15,000 a year salary he could draw in that position. Herbert H. Lehman, recently retired UNRRA head, also served without compensation. Officials of the organization said he drew on its funds only actual transportation expense overseas.

Allied Report Discloses: Over Six Million Jews Liquidated by Germany

By JOHN A. PARKES

LONDON, April 15.—(AP)—Adolf Hitler was "entirely successful" in his master plan for enlarging the German occupation, liquidating European Jewry, and reducing the birthrate in non-German countries, the first comprehensive account of the results of the war has disclosed.

IN A 14-PAGE REPORT based on official Allied documents and captured German files, the international committee for the study of European questions said Saturday night that while Hitler was successful in his plans for internal Germany, the Allied victory defeated his intention to establish surplus Germans in occupied territory.

The report said that under Hitler's "breed for the fatherland" campaign, Germany's population increased 1,500,000 during the first seven years of his regime.

It added that Hitler, in seeking to reduce the birthrate in non-German countries, was able to keep 11,000,000 to 12,000,000 men and women separated from normal marriage relations for five years, and was "successful in a large extent" in lowering the population in countries neighboring Germany.

MORE THAN 8,000,000 Jews, the report said, were liquidated by the Germans so that "the greater part of the Jewish population in Europe has been wiped out since 1937, and approximately 15,000,000 persons were killed in Europe and Russia during the war."

The report said further: About 350,000 German civilians were killed by Allied bombing raids.

On the average, only about two out of every 1,000 workers in German factories were killed by air bombardment.

New Home Grooms Blinded War Bride

NAPANEE, Ont., April 15.—(CP)—Mrs. George Akerblom, 36, sergeant in the Hastings and Prince Edward Regiment, was reunited to her husband and his bride, arrived here Saturday to find a newly-built bungalow awaiting her. The former Mary Morris of Eastbourne, Sussex, was blinded from seven to eight years.

Red Cross Smokes Stolen by Thieves

MONTREAL, April 15.—(CP)—Two burglars Saturday broke into the Red Cross offices on Avenue McTavish street and escaped with \$1,500 worth of cigarettes destined for wounded and sick in the hospitals of the armed forces.

Alberta Indians Get Grazing Land

OTTAWA, April 15.—(CP)—Resources Minister Glen yesterday announced his department had been authorized to purchase 10,000 acres of grazing and agricultural land for the Stony Indians of Alberta.

THE ADDITION to their reserve near Cochrane, Alta., would include 10,000 acres of land, including 10,000 acres of grazing and agricultural land, which would be added to the economic stability of the band.

An Indian affairs branch survey had reported that grazing lands of the Stony tribe were stocked "beyond carrying capacity" and more land was required urgently to provide adequate feed for the 1,400 head of cattle on the reserve—the principal means of livelihood for 800 of the 800 Stony Indians in the province.

Mr. Glen said the purchase money was being advanced by the federal government as a loan in perpetuity, with the Indians reserving the right to pay it off at any time interest at three per cent would be paid from year rentals.

That 14,500 Indian Kingdom civilians were killed, missing or injured during the war due to enemy action, with 80,585 believed killed.

WAR EXPORTS WERE ONLY A BEGINNING!

In the wake of war, peacetime exports demand far-sighted planning. Consider, for example, some official figures concerning the export plans of 791 Canadian plants. In 1939, they exported \$235 millions worth of products, in 1944, \$286 millions. To-day the planned exports of these plants total \$408 millions!

The epochal wartime growth of Canada's exports has given this country more than transitory eminence in world commerce. The confident plans of enterprising Canadians are soundly based on firm faith in enlarged opportunities: a + opened up, perhaps, by war: + but still open to-day.

For more than 90 years, the Bank of Toronto has kept pace with the expanding opportunities offered to constructive business. Many of the nearly 800 plants mentioned are but small plants—little businesses. Your own business plans, likewise, may be very modest: + involving, none the less, financing and credit problems. We cordially invite you to bring those problems to us. Our modern, comprehensive credit plans are deliberately designed to meet the business needs of a new era.

THE BANK OF TORONTO

Incorporated 1855

Edmonton Branch—W. KERR, Manager

Now try the NEW Gasoline

FINEST MOTOR FUEL EVER SOLD BY IMPERIAL OIL AT REGULAR, NON-PREMIUM PRICE!

DOROTHY DIX SAYS—

Aged Wife Nags Mate Who Wants Separation

Man Says His Trouble Is That Nothing He Does Pleases His Wife; He Doesn't Dream Right, Walk Right or Eat Right

DEAR MISS DIX: I am 60 years of age, my wife is a few years younger. Our children are married and gone. My trouble is that nothing I do pleases my wife. I don't dress right, I don't walk right, I don't eat right, I am righted to death. When I come in the house she meets me with a rag in one hand and she tells me in the other for fear I might leave a spot on a rag. I am a mechanic of the old school and like to make things around the house, but I am not permitted to touch anything. All I can do is sit in a chair.

I have been thinking for a long time about leaving my wife, but have hesitated because she is alone and I don't want to leave her never goes visiting. I would take care of her financially if I left her, but she would have no companionship whatever. What do you think I should do?

DISGUSTED HUSBAND

I AM afraid, poor husband, that with your conscience and your kindness of heart, there is nothing you can do but to stick out your marriage to the bitter end. For hard as your wife's petty tyranny is to endure, you could not be happy thinking of a lonely old woman sitting by herself in a solitary house into which nobody ever goes and with no one to indulge her with an even to her. You would lie awake at night wondering what was happening to her. If she was sick, with no one to even give her a drink of water or call a doctor. Of if she was afraid. Or, perhaps, the silence got on her nerves until the walls seemed to scream. It is easy to understand why you crave freedom from her continual faultfinding, but we can pay too high a price even for freedom.

There are many women like your wife who make such a fetish of cleanliness that they sacrifice their families to it. It becomes a kind of phobia. A spot on the place, a rug with a bit on it, cigarette ashes on the floor, spoils a whole day for them, and anyone who upsets their prescribed order commits a crime against them. You drive their husbands and children out of their homes until they are justified in doing it.

Unhappy is the man who marries a woman whose god is order, but if he is going to leave her he should do it before he gets so sorry for her, with her distorted outlook on life, that he can't do it.

Bulletin Patterns

Send your order to The Edmonton Bulletin, Pattern Dept., 60 Front Street W., Toronto 1, Ont. Please allow a week or ten days for delivery.

Points for Parents

By EDVTH THOMAS WALLACE

Not This

Mother: "Hurry up, Jack. How many times do I have to tell you to come? You know your father gets cross if he has to wait for you."

This

Boy: "Where's Dad?"

Mother: "He had to go. He couldn't wait for you. You remember our rule that you are to be called only once?"

Butter the logical consequences of disobeying a rule is the best possible way of insuring future obedience.

By JOSEPHINE LOWMAN—

Why Grow Old?

Naturally all young girls are not as beautiful as Actress Joan Winfield, above. But they do have youth in their favor and most of them have that extra zest which we should try to carry into later years.

SOMEONE has suggested that it is too bad to waste youth, and young people. I have often had the same thought, haven't you? Young folks waste a great deal of their bounding energy by being so sensitive, nervous, and trying to find their niche and happiness in life, in misconceptions and in worry over things which they would not do well to think of. Young persons have not yet matured sufficiently to know just what they want, their tastes are not fully formed, they suffer acutely over what they think will be laughable later.

JOSEPHINE LOWMAN on the right and her husband, JOSEPHINE LOWMAN, are acrobats. I remember once when I was 21 and just out of college, I went to give the commencement address at a high school in a nearby town. My subject was "The Possibilities of Youth." I was told that I was a copy of the speech. I was then, as now, on fire with a love of life, and was bubbling over with ideas that seemed sacred to me but I don't think I knew much about the possibilities of youth, or do yet for that matter!

USUALLY By the time a man and woman are mature enough to know just what is pleasing to them and what goals they wish to attain, they are caught in the trap of heavy responsibilities and have lost lots of the endless energy and enthusiasm which are characteristic of youth. Just think what you could accomplish at 40, or 50 or 60, if you had the seemingly endless pep which very young persons have. Think how you would enjoy life. The financial system seems to be turned around too. While older people need financial security and

Your Baby And Mine

By MYRTLE MEYER ELDER

EVERY MOTHER would find as definite recipes for feeding her child as she can get from her cook book for cooking. But children are individuals. They have varying needs and capacities for food, so no one can do more than suggest the amounts of food they may want at any one meal.

Babies make their own rules about eating and some children do what would seem incredible portions of food, some eat "like

ONCE THE CHILD is established on solid foods of different types it may be taken for granted that the average amounts to be served along with eight ounces of formula or the cup of milk, will be about two to four tablespoons.

THIS MEANS that in addition to these amounts of food the child will be able to drink his portion of milk. If he isn't able, then it may be the amounts of solid foods are too large. If he isn't gaining or isn't satisfied at the end of a meal then obviously he could eat more.

THE BEST any mother can do is to provide enough food at a meal as the baby's liking or desire for it may be satisfied. At some time the baby's food should consist of cereal, at another he might turn his head away after he has eaten half that amount. If he comes to each meal with a keen appetite, and his weight is increasing steadily, one need not be too upset if the amount is not to the mother's expectations of what he could eat.

The baby should be allowed to spur his appetite, eat all the food he wants, and then be left to sleep. If the child has no need for the food provided and always seems reluctant to eat or has to be wheeled, and entertained in order to get down, then the amounts need revision.

THE RIGHT AMOUNTS of food are, then, those which the child eats willingly three or four times a day, which leave him with the capacity to finish up his portion of milk after he has eaten, and which provide him with the nutrition for an increasing gain in weight.

Our leaflet No. 26, "Diet from One to Two Years," may be had by sending a stamped, self-addressed envelope with this request to Myrtle Meyer Elder in care of this newspaper.

Snake Bites Kill Woman Performer

LONG BEACH, Calif., April 15.—(AP)—Miss Ella Mark, 36, killed as the "Cobra Woman" in a reptile show, died in a hospital yesterday of snakebites suffered Saturday during a performance.

Manitoba Assembly Concludes Session

WINNIPEG, April 15.—(CP)—The first session of Manitoba's 22nd legislature—a session Premier Stuart Gordon characterized as one called mainly for voting of supply—prorogued Saturday night after sitting 53 days.

Little major legislation came before the house composed of 43 supporters of Premier Gordon's coalition government, re-elected in the provincial general election last Oct. 15, the 13-man CCF opposition and a representative of the navy, army and air force. The three latter were elected by balloting among service personnel.

Iran Prohibits Opium Poppies

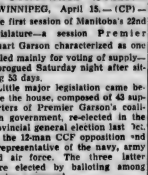

TEHRAN, April 15.—(AP)—Planting of opium-bearing poppies in Iran was forbidden in a proclamation issued Saturday by Premier Ahmad Gavan. The premier said in a radio speech recently that "90 per cent of the population is addicted to opium."

Palace Servants Become Unionized

LONDON, April 15.—(CP)—Reynolds News, a labor newspaper, issued only on Sundays, said yesterday Buckingham Palace servants are becoming members of trade unions for the first time.

Capital City Greets Vice-Regal Party

Road Ahead

(Continued from Page Nine)

The other two had no food. Would you in front of them, eat your box of groceries all by yourselves and not offer any food to the other two? Would you let them watch you eat without giving them some? Would you watch them go hungry and suffer the pains of hunger while you continued to eat and eat well? I don't think there is a person in Canada so selfish that he could do that.

And yet Canadians are not going hungry today. There is hardly a meal that each of us does not get up, feeling that we have perhaps eaten too much, and left food on our plates when we left the table. We grumble when the restaurant doesn't have butter with the meat meal. And we never give a second thought to the children, and women, and men who are dying of starvation while we let our beds be another notch.

Stored in granaries all over Canada are millions of bushels of wheat—which have never been delivered to market, and will not be delivered to market because the owner will have to share his graincheek with Mr. Riley. Yet the men who grew that wheat have never known such prosperity before as they have enjoyed during the past six or seven years.

IT IS TRUE THAT business is business. But there is also something else which is even more fundamental than business—and that is the duty of one man to look after his brother. Because we don't like our brother more because they are a long way away, because we don't have to watch them starve doesn't remove us of our responsibility to feed them if we can.

I don't believe that it is fair for Canada to expect the farmers alone to pay the entire cost of feeding the starving, Germans and Orientals. Not any fairer than it was to ask some men to die that the rest of us might live free. But I do believe that it is the duty of Canada and Canadians as a whole to see that so long as we have food, that that food which we can't use ourselves is sent to keep people from starving.

AND SO BUSINESS is still business. Alright, it is good business to let people who are potential customers of the food and goods we produce, and most export, die of starvation. It seems to me that it is only good business to send these people all we can, to try to gain their trust and friendship, to show them that democracy is based on the brotherhood of man. They won't forget our kindness when eventually they are in a position to do us a favor by buying our products.

If a plebiscite were to be held in Canada today to see whether Canadians were in favor of putting all Germans in a poison gas chamber, and killing them, it would be turned down by an overwhelming majority—even by those who lost relatives in the war. Yet we are being crueler than that. We are condemning thousands of them—chiefly the poorer ones who didn't have sense enough to know what the war was all about anyway—to die the tortuous death of slow starvation.

SO WE WANT to win the peace! Yes, we want it—provided it doesn't cost anything. Merciful God forgive us—we know not what we do.

Bonus Is Urged For War Veterans

A resolution to the effect that the Dominion government be urged to add a cost-of-living bonus of 20 per cent to all unpaid balances credited to veterans in their war service gratuities and rehabilitation credits, was passed at a meeting of the South Side branch of the Canadian Legion, B.E.S.L. held Sunday afternoon in the club rooms.

THE REASON STATED in the resolution for the need of the bonus was that the Dominion government has recently lifted price ceilings on foodstuffs and turn-of-war, etc., and allowed prices on many of these articles to rise from five to 38 per cent.

The resolution further states, the articles on which prices have been allowed to rise are those which the veteran who has been recently discharged is most urgently in need of in order to properly rehabilitate himself.

The resolution also asked that the bonus be effective from the date that the ceiling prices on furniture and food were allowed to rise.

W. RORKE, HEAD of the student body at the University of Alberta was elected as the South Side branch's delegate to the Dominion convention. The association president, A. H. Tompkins, was in the chair.

It was announced that a church parade will be held on Sunday, April 20. Members are asked to meet at St. John's Evangelical church, 109 street and University avenue, at 2:45 p.m.

Jews Celebrate Passover Feast

At sundown tonight Jews all over the world will begin observance of their festival of liberation, the Passover. For the first time since 1933 of the threat of a Hitler, the persecution which put Egyptian slavery into shade in the annals of Israel.

FOR 1,500,000 Jews abroad, Passover, which commemorates the Israelites' delivery from bondage in Egypt, will have added significance this year as they give thanks also to their own delivery from bondage of Nations.

The traditional first of the four questions asked by the youngest child of the household to explain the Passover observance might almost be changed this year from "wherein is this night different from all other nights?" to "wherein is this year different from all other years?"

BUT LITTLE ALTERATION would be required to bring the answer to date. "Wherein is this year different from all other years?" into Pharaoh in Egypt, and the Lord, our God, took us out of there with a strong hand and an outstretched arm.

This year the Jews of Canada have set aside their Passover charity (the Mena Chutim) for the relief of Jewish war victims overseas. The Canadian Jewish Congress has transmitted \$100,000 to Europe and elsewhere for this purpose.

IN A MESSAGE to the Jewish community on the occasion of this holiday, Samuel Bronfman of Montreal, national president of the congress, said "The Passover is perhaps, and with him has fallen in ruins the oppressive pyramid of the Nazi social structure."

Medical Groups to Make Tests On Members of Musk-Ox Party

The effects of weeks of exposure to the Arctic will be better known to science as the result of research carried out on the personnel of the Musk-Ox expedition by a group of doctors from the Royal Canadian Army Medical Corps and Harvard University, who plan to make the returning force at Fort Nelson to subject them to the necessary medical and chemical tests.

THE MEDICAL group is headed by Dr. Robert Karik of Columbia University, who wears in the lapel of his jacket, the familiar Canadian discharge emblem as he was, too, with the RCMP during the war. His last official job in the army was a survey of health conditions and physical fitness of troops in the Burma theatre of war.

He is accompanied by Dr. F. I. L. Taylor of the Thorndike Memorial Laboratory, Harvard University. Dr. Taylor received much of his education in Saskatoon and when the train passed through that city on Sunday night it was the first time he had seen the city for 18 years.

Dr. Robert E. Johnston is another of the Harvard men with the party. During the war years he was consultant for the Office of the Quartermaster General for the American Army.

THEY WILL BE JOINED here by Capt. J. Coleport, Capt. A. Brynne and Capt. D. Bell of the RCMP. The medical officer with the expedition is Capt. Cromie who has been keeping the men under observation.

The doctors in this group examined the men of Musk-Ox at Churchill before the foray into the north started. They made intensive tests of their physical condition, their reaction to various types of foods and other conditions likely to be of importance. The same tests were carried out when the parties again met.

THE MEN WERE in excellent physical shape when they left Churchill, Dr. Karik said. "In fact they were in better shape than the Harvard rowing crew," he emphasized. "We were they were in better shape as a group than any I have ever seen except the Gurkas."

They know what foods the men have eaten while on their trip and will be prepared to judge from the one-time president of Mexico,

Lady Alexander. A few minutes after this photograph was taken, Viscount Alexander inspected a Guard of Honor and drove to the Parliament Buildings where the Oath of Office was administered.

North Storeman, S. Kushner, Dies

A funeral service was conducted Sunday afternoon at Connolly-McKinley's chapel for Sam Kushner, 65-year-old Northern Canadian storeman who died Friday evening following a brief illness.

Mr. Kushner opened a store in Fort McMurray in 1914, which he operated for the next 20 years. He died of a heart attack while on a business trip to Yellowknife where he operated a store until he became ill a few weeks ago.

THE SERVICE was conducted by Rabbi Porton and was followed by burial in the family plot, Edmonton Jewish cemetery. Surviving are his wife and two sons, David and Leslie, and two sisters in Montreal.

THE CLOSE LINK between medical research in the military and the civilian fields are exemplified in Canada by the appointment of Dr. H. B. Brown, who was director of medical research for the RCMP to the position of chairman of the medical research division of the National Research Council.

The Harvard group also pointed out that their work emphasized the importance of international collaboration between the United States and Canada.

Two More Deaths In U.S. Epidemic

SEATTLE, April 15—AP—Two new deaths from multiple Sunday lifted the fatality toll in this city from the death toll to 10.

The victims were both elderly men, one 72, the other 81, and both suffered other ailments along with mallock.

Dr. J. K. Boorman, city health department epidemiologist, said that in the case of the 81-year-old the disease had been modified by vaccination.

He said 22 active cases and one suspected remain in King County hospital. Seven patients have been discharged as cured.

Mosulini was named after a 1945 outbreak of the disease in Mexico, which was the one-time president of Mexico,
